Word Compatibility Comprehensive Fixture

Real OOXML fields covering TOC InstrText, captions, bookmarks, tables, images, textboxes, and header/footer run boundaries.

1. TOC InstrText matrix

Default hyperlinks and outline levels

1. TOC InstrText matrix.....1

Page-number omission and custom separator

Level 1 entry-1 Level 2 entry

Custom style mapping

Appendix compatibility.....2

Preserve source tabs and manual line breaks

Part One Overview.....2

Bookmarked section begins

Bookmarked heading A

Bookmarked section ends

Bookmark-scoped partial TOC

Bookmarked heading A.....2

Appendix compatibility

Part One Overview

2. Captions and field results

Figure 1: Architecture

Figure 2: Deployment

Table 1: Compatibility matrix

Table of figures (label and number retained)

Figure 1: Architecture.....3 Figure 2: Deployment.....3

Description-only figure list

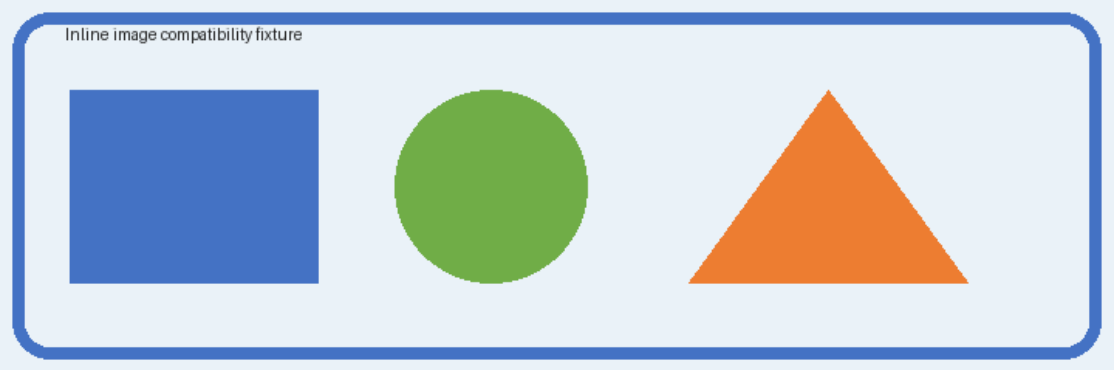

Architecture.....3 Deployment.....3

Referenced compatibility text

Heading with REF:

3. Table, image, and textbox

Feature	OOXML shape	Expected behavior
Table	fixed grid and merged title	Borders, wrapping, vertical alignment
Objects	inline image + VML textbox	Visible without text loss

Textbox: wrapping, padding, border, and nested text.

End of compatibility fixture.
