Before the table[1]

Row 1 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[2]	Right 1
Row 2 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[3]	Right 2
Row 3 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[4]	Right 3
Row 4 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[5]	Right 4
Row 5 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[6]	Right 5
Row 6 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[7]	Right 6
Row 7 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable amount of space.[8]	Right 7
Row 8 Footnote numbering follows the position of each reference in the main story, so this filler sentence only exists to occupy a predictable	Right 8
